worldpay

## An introduction to Worldpay

Worldpay is a global leader in financial technology, providing businesses of all sizes with the tools to make, take, and manage payments efficiently.

Operating in 146 countries and supporting 135 currencies, Worldpay is at the heart of seamless commerce experiences – whether online, in-store, or mobile.

Worldpay offers a wide variety of payment equipment, including countertop and mobile card machines, an online payment gateway, an eCommerce payment solution and EPOS.

Plus, you can manage settlements and reconciliation, get real-time financial insights and track invoices on your schedule from the palm of your hand using the Worldpay Dashboard, accessible on desktop and via a smartphone or tablet.

## Benefits of using Worldpay

### **COMPREHENSIVE PAYMENT MANAGEMENT**

The Worldpay Dashboard tracks transactions, settlements and invoices, giving you real-time insights into your business activity, sales and customer behaviour.

### **MAKE DATA-DRIVEN DECISIONS**

It's easy to access transactions, sales totals and customer spending patterns on the Dashboard, allowing you to make informed decisions on your business processes.

### **RECONCILIATION AND SETTLEMENTS**

You can reconcile and settle payments with ease. The Worldpay Dashboard enables you to view deposits, sales vs refunds and individual settlement summaries in one place.

### **SAFER PAYMENTS**

This platform helps you stay secure and ensure compliance with PCI-DSS and the prevention of cyber threats.

### **FRAUDSIGHT**

Protect your business from fraud with data insights, advanced technology and expert analysis.

### **DIGITAL WALLETS**

Simplify online checkouts and increase cart conversions by offering Apple Pay, Google Pay and other digital wallet options.

## Using credit cards helps cash flow

An alternative payment method, often considered by merchants, is Open Banking. This is a quick and easy way of paying bills without credit card charges and works similarly to a BACS transfer, with your money leaving your account immediately.

This is fine if you have the money in your account – but most BMF members want to hold onto their cash for as long as possible. Worldpay gives members the ability to pay for stock or goods and benefit from a credit period before the money leaves their account.

## Our partnership with Worldpay

The building industry is unique – so your builders merchant services should be too.

To stay up to date with advancements in payment technology, it's essential you can connect your customers with every relevant payment method – anywhere, any time and on any device.

That's where Worldpay comes in.

The BMF has partnered with Worldpay to bring our members an exclusive offer on their card payments service.

### This collaboration provides you with the following benefits:

#### **PREFERENTIAL RATES**

Across all card types.

#### **ALL PAYMENT METHODS COVERED**

Face-to-face, online, phone and payment links.

#### **WORLDPAY REWARDS**

A benefits portal available to all of your employees, allowing you to access attractive discounts at over 70 high street stores.

#### **POINT OF CONTACT**

24/7 access to customer support.
