

GREEN HOMES GRANT SCHEME

The steps to unlocking new customers

"A £2bn Green Homes Grant Scheme (GHGS) has been made available to homeowners and landlords to improve energy efficiency measures, this is a great opportunity for our industry"

John Newcomb
CEO, BMF

What's on offer?

Homeowners will be able to apply for a voucher to fund up to two thirds of the cost of upgrading the energy performance of their home. The vouchers will pay up to two thirds of eligible improvements up to the value of £5,000.

Low income households are eligible to claim up to 100% funding, to the value of £10,000.

What energy efficient improvements are included?

- ⇒ Roof, wall, and floor insulation
- ⇒ Air or ground source heat pumps
- ⇒ Solar thermal
- ⇒ Replacing single to double or triple glazed windows
- ⇒ Energy-efficient doors
- ⇒ Hot water tank/appliance tank thermostats/ heating controls

How to get involved

TrustMark and the BMF have teamed up to provide all the information you need to check whether you already meet the requirements or need training to become certified. This leaflet will help you identify what steps you need to take.

Key points

- ⇒ Vouchers are available for up to two thirds of eligible improvements up to the value of £5,000
- ⇒ Up to £10,000 for low income households, with up to 100% funding
- ⇒ Only TrustMark Registered Businesses can undertake the installation of the work
- ⇒ Businesses will need to be suitably PAS 2030 and MCS certified. Conditions apply
- ⇒ Scheme is available until March 2021
- ⇒ FREE training is available on how to become certified and registered

GREEN HOMES GRANT SCHEME (GHGS): STEPS TO UNLOCK NEW CUSTOMERS

In July 2020, the Chancellor announced a £2bn Green Homes Grant Scheme in England to help homeowners and landlords improve over 600,000 homes to be more energy efficient across England. This was launched in September 2020 and will run until March 2021 supporting the drive to achieve the UK's net-zero target by 2050.

Offering your Customers more

Having a PAS2030 or MCS certification and TrustMark registration, will not only enable your business to support customers with their energy efficiency, Zero-net and Retrofit projects, but will also provide your customers with a greater level of confidence that their work will be completed to government recognised standards.

Offering your Customers more

TrustMark and the BMF have partnered to provide training sessions that detail the necessary steps to check whether you already meet the requirements or need further training to become certified.

For more information on training go to:
